REPUBLIC OF SOUTH AFRICA

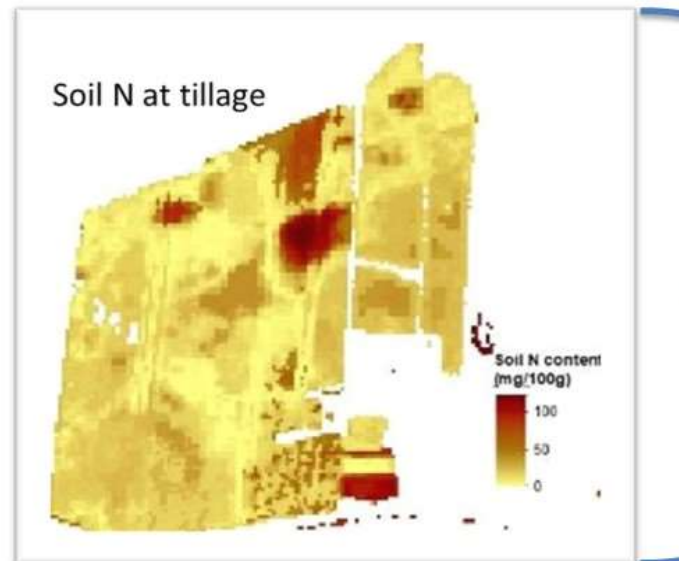

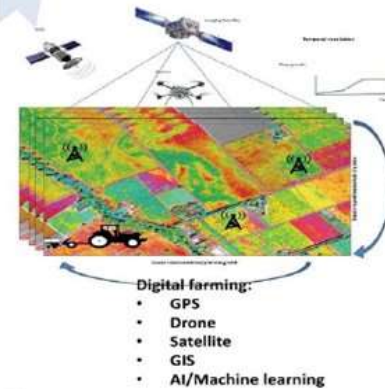

What is Precision Agriculture (PA)

□ PA is about:

- **Observing**
- **Measuring and**
- **Responding**

to within-field differences in
Soil and crop health in
Near real-time.

□ The maps offer
actionable insights

Example

Benefits of PA

Action: Targeted application of N
(at right time, place & amount)

Benefits:

- (1) Reduced use of N
- (2) Reduced cost of production
- (3) Higher profits to industry
- (4) Lower pollution (benefit to society).
