NATIONAL EARTH OBSERVATIONS  
AND SPACE SECRETARIAT

 **CSIR**  
Touching lives through innovation

## TECHNICAL SESSION 1

### SHORT BIO

Tshisikhawe Mphaphuli is the Chief Advisor Geoscience at the National Transmission Company South Africa (NTCSA), a subsidiary of Eskom Holdings. With an MSc in Geospatial Science and Systems and 24 years of experience in Remote Sensing and GIS across government, municipal, and Eskom sectors, she leads the establishment of NTCSA's GIS department. Her role includes delivering advanced geospatial services, integrating new technologies, and supporting climate resilience initiatives. A registered GPrGISc (1512) with the SA Geomatics Council, she actively contributes to internal and external committees, conferences, and publications.

Harnessing Space and Earth Observations to strengthen transmission infrastructure and national resilience
